

CMU IEEE SPONSORSHIP PACKET

The Institute of Electrical and Electronics Engineers (IEEE) is a professional organization for members of the Electrical and Computer Engineering related fields. Today, the international organization has over 400,000 members and is known for its publications and standards around the world.

We are Carnegie Mellon University's Student Chapter of IEEE. CMU IEEE is a community-fostering organization within the Electrical and Computer Engineering (ECE) department at Carnegie Mellon. We provide a social, technical, and professional community for our student body, and strive to help the ECE community gain knowledge, skills and peer networks that will help them find success in their academic and professional careers.

WHY SUPPORT CMU IEEE?

Carnegie Mellon University has one of the top Electrical and Computer Engineering programs in the world. Get access to the cutting-edge talent that our ECE department has to offer, from the department's organization dedicated to building a community amongst it!
